TIRE TRACKS THE ELECTRONIC VERSION

Greetings, Waynesboro—Staunton Region Members & Friends,

The holidays are fast approaching and we're awash in predictions of the harsh winter ahead. We'll probably still get a day or two of decent old car weather so take advantage of them before you store the car(s) for the winter. We look forward to seeing all of you at our Annual Christmas party on Dec. 14.

Stu Allen—Editor

Sue Baugher April 16, 1914—November 22, 2014

The only remaining charter member of the Waynesboro-Staunton Region passed away on Nov. 22, 2014. She was 100 years old. Sue faithfully attended our Founders Day celebration each year including 2012, and we were always amazed at how sharp she was. Our condolences go out to her family. She will be missed.

PRESIDENT'S MESSAGE

We had a good turnout at our November meeting at Kathy's Restaurant in Staunton. Sometimes attendance is low in November but this year was an exception. Why was attendance low in November? I think it is because we elect club officers for the upcoming year, and folks are afraid they might get nominated for an office if they attend. That's my opinion!

Congratulations to our 2015 officers: President—Ken Farley; Vice President—Alfred Meyer; Secretary—Robbie Gray; Treasurer—Jack Drago. Many thanks to everyone who participated in "Show and Tell" at our November meeting—Stu Allen, Billy Melton, Duane Perrin, Charlotte Kuykendall, Nelson Driver, Sue Gregory, Jim Rimel, and Al Meyer. We enjoyed seeing the interesting items Charlotte brought that were sent to family members from her father during WWII. Also Charlotte looked fantastic modeling her grass skirt!!

I hope you will join in the fun and fellowship of the Holiday Season by attending our Christmas Dinner Party at Pano's Restaurant on Sunday, December 14, 2 p.m. (one week earlier than our regular meeting date). Wear vintage clothing if you want, and drive an antique car. A prize will be given to the antique car selected by Pano's staff as their favorite. As has been the tradition, we will have our Chinese Gift Exchange. Please bring a gift with a value up to \$15, and mark it for either Man or Woman.

Carol Sarginger is chairing the Greene County Woman's Club Christmas Project, and they are collecting like-new stuffed animals and books for kids up to age 14 and also leftover yarn. Their Club would like to give gifts to 400 underprivileged kids this Christmas. I told her that we would help with this worthy project. If you have any like-new stuffed animals and books and any yarn leftover from projects, please bring them to our Christmas Party.

If you live west of the Blue Ridge, call me (540-289-5520) and I will pick them up.

Want to take a day trip? The Museum of the Shenandoah Valley in Winchester has an unique exhibit, "Second Time Around: The Hubcap as Art." It presents works by almost 300 artists from around the globe who turned discarded hubcaps into art. This exhibition of contemporary art closes on March 1, 2015. The Museum is open Tuesday through Sunday 10 a.m. – 4 p.m. You can see some photos and read more about the exhibit on their website at themsv.org.

Stay warm, healthy, and safe during the holidays. See you at Pano's.

Doris Stone

For "Show and Tell" Doris brought a coconut that was mailed to her Mom from Hawaii. Note that the address is written on the nut. No packaging required!

November 16 "Show and Tell"

Everyone enjoys the food and fellowship at Kathys in Staunton.

Jim & Sue Gregory and Shirley Farley were seated in front of some of our "guests".

Duane Perrin brought a connecting rod that suffered babbitt loss and made lots of noise.

Charlotte Kuykendall brought in some treasures her Dad had sent from the Pacific during WWII.

The grass skirt and the model have both aged very well!

Servicemen were great at creating useful items from brass shell casings. Charlotte shows a candle stick made by her Dad.

Billy Melton shows his rescue device for towing a Model T.

Your editor showed a "Oilometer" shift knob that reminds the driver when the oil change is due.

Sue Gregory brought a beautiful glass bowl that was given to her by long-time member Mrs. Ki Williams.

Nelson Driver tells of his adventures of being in a movie with his Imperial.

Jim Rimel brought a brand new heater, shipped in its original box, that fits a 1949 Ford Tudor. His son recently purchased this online. (The guy has 2 more!)

BETSY—THE LONG-TERM RESTORATION

Restoration of a 1934 Chevrolet Master

By Stu Allen

Part 10 More Body Parts

If you have been following this series, we've covered the progress since 1978 and I want to assure you that we are getting there! This installment has some pictures taken in 2012 when the pace of activity gained speed.

The front fenders were particularly challenging since they had long compound curves, were really beat up and were to be painted black, demanding that they be very straight and smooth.

Many hours were spent priming, sanding and applying filler

A final coat of primer-surface looked smooth.

There is always a good feeling when the final paint goes on.

Once the fenders were done, it was time to return to work on the body. Back in Part 8 we showed the black paint removed exposing the original brown. At that time I had done some body work to remove some large dents in the rear quarter and roof.

Next I used rotary cleaning discs to get to bare metal, followed by sanding to remove any deep scratches

After etching the bare metal, double coats of epoxy primer were sprayed to provide a base for further body work.

Multiple coats of primer surface were then applied with sanding between coats to assure a smooth surface.

Here is an example of what happens when you sand over a high spot. Bare metal shows through and it's time to hammer or grind down the spot, spray more epoxy, followed by primer surfacer

Once the primer was sanded smooth, a coat of sealer was applied, and followed immediately by finish paint

Once the color (Pueblo Brown) was applied, it starts to look like a car! Almost done? Not quite. Wet sanding a few runs revealed some primer showing through, requiring more coats before final wet sanding and polishing.
